

計算使用者輸入數字的總額

```
const sum = arr => arr.reduce((x, y) => x + y, 0);
```

```
const map = fn => arr => arr.map(fn);
```

```
function onClick (value) {  
  console.log(value); // ['290', '123', '234'];  
  const numArr = map(Number)(value);  
  const result = sum(numArr);  
  console.log(result);  
}
```
